Operating Revenue

Water and Wastewater Rates

In 2018, the District implemented a tiered or "inclining block" water rate structure to encourage conservation efforts in accordance with a new law passed by the State of Utah. In 2022 the District is modifying its rate structure to increase water rates by approximately 7% and wastewater rates by approximately 18%, for a total revenue increase of \$3.5 million when compared to the prior year's budget. These increases are driven by higher operating expenses resulting from the increase in the Central Valley Water Reclamation Facility (CVW) debt service that is financing its facility rehabilitation, to help sustain and replace the District's aging infrastructure and increasing the scope of the meter replacement program in the District.

The 2022 tiered water rate structure will be as follows:

Availability fee remains the same at \$13.00 per EDU.

Water tier rates for single family (residential) customers will be based on the following table:

```
0 - 7,000 \text{ gallons} = $1.77 \text{ per } 1,000 \text{ gallons}
```

7,001 - 15,000 gallons = \$1.90 per 1,000 gallons

15,001 - 45,000 gallons = \$2.20 per 1,000 gallons

All > 45,000 gallons = \$3.00 per 1,000 gallons

For non-residential customers, the District will apply a fixed rate of \$2.10 per 1,000 gallons.

The 2022 wastewater rate structure will be as follows:

Base wastewater rate will drop from \$21.50 to \$15.50 per EDU. The CVW \$5.00 per EDU will remain unchanged. Additional charges will be based on an indoor usage charge of \$1.50 per 1,000 gallons. Indoor use is defined as water consumption billed in months December through April. Those customers who have grease interceptors will remain on specific rate tables that are based on the contaminants put into the District's wastewater system.

Property Tax Revenues

During the September 2021 board meeting, the Board of Trustees formally adopted a property tax policy. In the meeting, it was decided that the District would set a property tax revenue amount that would equal 17% of total operating costs excluding the CVW debt service payments. 17% of operating costs represents "public good" services the District provides, including but not limited to, fire protection, public health, ground water management and current and future debt service. The new rate is estimated to increase by about 45% from 0.000414 to 0.000600 and estimated to collect \$5.5 million in total revenue (does not include estimated motor vehicle and delinquent taxes).
